Career Objective

Frontend Developer with 3 years of hands-on experience in building responsive and user-friendly web applications using React.js, JavaScript, and modern front-end technologies. Adept at collaborating with cross-functional teams to deliver high-quality products that enhance user experience. Seeking to contribute my expertise in a dynamic and innovative organization.

Work Experience

Frontend Developer | Reben, Saudi Arabia | 01/2025 – Present
 - Developed and maintained responsive web applications using **React.js and Next.js** for server-side rendering and optimal performance.
 - Converted Figma designs into interactive UI components while ensuring cross-browser compatibility.
 - Collaborated with designers and backend developers to deliver **user-friendly interfaces**.
 - Optimized performance, enhanced **SEO**, and improved overall user experience.

 - Integrated third-party APIs and managed state using **Redux**, supporting scalable application architecture.
 - Managed version control and team collaboration using **Git/GitHub.**
 - Provided technical support and contributed to IT infrastructure when required, ensuring seamless operations.

Frontend Developer | Deme Group | 03/2022 – 03/2023
 - Designed and implemented the company website and internal tools using **React.js**, **Next.js**, and **Bootstrap**, applying modern front-end practices.

 - Translated **Figma and UI/UX designs** into responsive, interactive interfaces, ensuring a seamless user experience.
 - Collaborated closely with a **team of developers and stakeholders**, contributing to scalable solutions and optimized workflows.
 - Enhanced website performance and **SEO visibility**, leading to faster load times and improved search rankings.
 - Managed project workflow with **Git/GitHub**, performed code reviews, and maintained version control for collaborative development.

Freelance Frontend Developer | Remote | 06/2020 – 02/2022
 - Delivered multiple freelance projects for clients across various industries.
 - Built responsive websites and **single-page applications (SPAs)** using React.js, **Next.js**, HTML5, CSS3, and JavaScript.

- **Translated Figma and other UI designs** into working, user-friendly interfaces.
- Managed full project lifecycles independently, from requirements gathering to deployment, using **Git/GitHub** for version control.
- Optimized website performance, ensured cross-browser compatibility, and implemented client-specific features.

Education

Bachelor's degree in computer science - Higher Institute of Engineering and Technology (2019 - 2023)

Projects

Personal Portfolio Website

Showcases key projects and skills using React.js.

🔗 https://abdomoussa22.github.io/My_Portfolio/

Reben Company Website

Developed a company website using React.js and Bootstrap.

🔗 https://reben-website.vercel.app/

YouTube Clone

Built a YouTube-like platform using React.js, Material-UI, and Rapid API.
